Learning Objectives

Today's presentation will focus on:

• Understanding the major changes under the new OMB Uniform Guidance 2 CFR Part 200

• How the changes may directly impact your daily activities

• Resources available for implementing the OMB Uniform Guidance 2 CFR Part 200 requirements
OMB Uniform Guidance – 2 CFR Part 200
Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards

• The final guidance was issued on December 26, 2013 and supersedes and streamlines requirements from OMB Circulars A-21, A-110, A-133 and 5 other circulars.

• The OMB Uniform Guidance 2 CFR Part 200 became effective on December 26, 2014
  ▪ With the exception of the procurement provisions which due to an election become effective as of July 1, 2016

  ▪ The guidance for the Audit Requirements becomes effective for the RF with the fiscal year that begins July 1, 2015
The interim joint final rule was issued on December 19, 2014 implementing the OMB Uniform Guidance 2 CFR Part 200 published by OMB on December 26, 2013.

2 CFR Part 200 is effective for new awards and selected funding increments issued on or after December 26, 2014.
Key Considerations

• Prior Approvals
• Administrative and Clerical Charges
• Effort Reporting
• Procurement
• Other Direct Charges
• Cost Sharing
• Closeout
• Subrecipient Management and Monitoring
• Other Considerations
Prior Approvals 200.407

• New emphasis on agency prior approvals
  • May slow down research activities. Not clear that Federal agencies have adequate staffing to respond quickly

• Examples where prior approval is required:
  Unrecovered F&A as cost sharing
  Fixed price Subawards
  Charging administrative salaries
  Participant support costs
  Rebudgeting
  Pre Award Costs
  Unusual cost items
Charging Administrative and Clerical Salaries
200.413

• “The salaries of administrative and clerical staff should normally be treated as indirect (F&A) costs. Direct charging of these costs may be appropriate only if all of the following conditions are met:
  1. Administrative or clerical services are integral to a project or activity;
  2. Individuals involved can be specifically identified with the project or activity;
  3. Such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency; and
  4. The costs are not also recovered as indirect costs.”

• “Major Project” requirement for direct charging is removed
Effort Reporting
200.430

• Same concepts as circulars but less prescriptive
• A-21 examples of acceptable systems were removed
• “Confirmation”, “statement…signed by the employee”, “report…signed by the employee” all removed
• Requires a consistent written definition of institutional base salary (IBS).
• Charges for salaries and wages must be based on records that are supported by a system of internal controls.
The current effort reporting process, including ECRT, is compliant with the Uniform Guidance.

A subgroup will be evaluating the effort reporting process after more information is released by federal agencies, the audit community, organizations such as COGR, and other institutions.
Procurement Standards
200.317 – 200.326

Outlines 5 procurement methods:

(1) Procurement by Micro-Purchases (up to $3,000) – no need to solicit competition if price deemed reasonable

(2) Procurement by Small Purchase Procedures ($3,000 to $150,000) – requires solicitation of quotations from an “adequate number” of sources

• This is the biggest & potentially most onerous change
• Current RF policy requires competition at $50,000
• Could potentially require significant additional effort resulting in delays in acquiring goods and services
(3) **Procurement by Sealed bids (more than $150,000)**
– preferred in construction or other purchases where price is the major component (formal advertising required)

(4) **Procurement by Competitive Proposals (more than $150,000)** – RFP must be publicized and awarded to most advantageous offer with price and other factors considered

(5) **Noncompetitive purchases (single source)** – used when product or service is only available from one source or in other limited instances
Other changes of interest include:

• Listing of detailed “affirmative action steps that must be taken” to assure that MWBEs and labor surplus firms are used when possible

• Cost or price analysis required for all procurements above the simplified acquisition threshold ($150k)

• Negotiation of profit required for each contract over $150k in which there is no competition (single source procurements)

• Must maintain records sufficient to detail the history of the procurement (rationale for the method of the procurement, selection of contractor type, reasons why contractors selected and basis for the contract price)
Procurement Standards (cont.)

- OMB recognized that these changes may take significant effort to implement which has resulted in them providing a one year grace period for implementing the Procurement Standards
- RF has opted to comply with A-110 for FY16 and has documented in the procurement policies
- New standards only apply to procurements for goods and services charged directly to a Federal award so consideration is being made to have exceptions in some areas when indirect or non-Federal awards are used
- Campus team is reviewing proposed revisions to procurement policy & procedures that will be effective 7/1/2016
Other Direct Charges

• Computing devices now allowable
  • need to be “essential and allocable”
  • Not necessarily solely dedicated to the performance of the award
• Employee health and welfare costs
  • elimination of “employee morale”
• Participant support costs
  • needs prior approval
Other Direct Charges (cont.)

• Short term travel visa costs
  • allowed if directly connected to an award

• Publication and Printing Costs
  • allowed if incurred prior to closeout

• Travel dependent care costs
  • allowed but must be consistently applied
Cost Sharing

200.306

- Office of Management and Budget (OMB) Uniform Guidance 2 CFR Part 200 defines the federal requirements on sponsored programs.

- 200.306 Cost Sharing or Matching:
  - Clarifies policies on voluntary committed cost sharing.
  - Stipulates that voluntary committed cost sharing is not expected under federal research proposals and cannot be used as a factor during the merit review of the proposal.
Cost Sharing
200.306

• Restrictions on Voluntary Committed
  • “voluntary committed cost sharing is not expected”
  • “cannot be used as a factor during the merit review of applications”
  • Exceptions (but those must be specified in notice)

• Only cost share that is mandatory or committed in the project budget must be included in the organized research base for computing F&A

• 2/12/14 FAQ states that OMB Memorandum 01-06, Clarification of Uncommitted Cost Sharing is still in effect
Closeout 200.343

No stated change for recipient, but…

- All reports due “no later than 90 calendar days after the end date of the period of performance”
  - New emphasis on progress reports

- New circumstances
  - Pressure on agencies (OMB 7/2012 Controller Alert)
  - Changes in NIH and NSF financial reporting – award by award
  - Enforcement through 90 days for cash draw
  - Frustration over progress reports

- Closeout is the focus of a new FDP/COGR working group
F&A and DS-2s

• Third-party cost sharing needs to be in the base (denominator)
• 10% de minimis F&A rate
• Acceptance of Negotiated Indirect cost rates. Deviations must have agency head approval with notification to OMB
F&A and DS-2s (cont.)

- One-time F&A extension for up to 4 years
- DS-2s for schools with over $50 million in federal awards (SBU, UB, UA)
- New 1.3% utility cost adjustment (UCA)
- Only mandatory cost sharing included in the base but 2001 OMB memo still applicable
Subrecipient Management and Monitoring

• Definitions: Subaward § 200.92, Subrecipient § 200.93 and Fixed Amount Awards § 200.45

• Subrecipient Monitoring and Management: § 200.300-332
  • Subrecipient and contractor determinations § 200.330
  • Requirements for pass-through entities § 200.331
  • Fixed Amount subawards § 200.332
Subrecipient Management and Monitoring

- **Pre-Award** *(2 CFR Part 200.330)*
  - Subrecipient vs. contractor determination must be made and documented
  - Perform a risk assessment of the subrecipient
- **More prescriptive Post-Award requirements** *(2 CFR Part 200.331)*
  - Add a lengthy list of elements to the subaward terms
  - Establish a monitoring plan for the subrecipient and enforcement action against noncompliant subrecipients
    - Financial review
    - Programmatic review
  - Must use subrecipient’s negotiated F&A rate or provide a 10% MTDC “de minimis” rate (or another negotiated rate with the subrecipient)
- **Fixed amount subawards require written prior approval from the federal agency** *(2 CFR Part 200.332)*
5 Step Toolkit
Subrecipient Monitoring and Management

The Research Foundation must comply with any prime award’s specific requirements for issuance of subawards.

• All of the terms and conditions applicable to the subaward must be flowed down to the subrecipient.

• The 5 step toolkit was developed to assist in determination, risk assessment and periodic monitoring of subrecipients.

• These steps are required for federal awards and are considered best practice for all others.

Additional Federal Requirements

2 CFR Part 200 places certain additional requirements for monitoring and managing subrecipient activities on federally-funded awards. In order to ensure that the Research Foundation is in compliance with federal regulations, the requirements at 2 CFR 200.330-332 shall apply to subrecipient arrangements funded with federal funds.
5 Step Toolkit
Subrecipient Monitoring and Management

The Research Foundation must comply with any prime award’s specific requirements for issuance of subawards.

All of the terms and conditions applicable to the subaward must be flowed down to the subrecipient. The Subrecipient Policy outlines responsible parties.

A 5 step toolkit has been developed to assist in determination, risk assessment and periodic monitoring of subrecipients. These steps are required for federal awards and are considered best practice for all others. The resources provided may be used to satisfy these requirements.

Additional Federal Requirements

2 CFR Part 200 places certain additional requirements for monitoring and managing subrecipient activities on federally-funded awards. In order to ensure that the Research Foundation is in compliance with federal regulations, the requirements at 2 CFR 200.330-332 shall apply to subrecipient arrangements funded with federal funds.

<thead>
<tr>
<th>Step</th>
<th>Description</th>
<th>Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Subrecipient/Contractor Determination</td>
<td>A pass-through entity must make a case-by-case determination whether each agreement it makes for the disbursement of Federal program funds cast the party receiving the funds in the role of a subrecipient or a contractor.</td>
<td>RF, Subrecipient vs. Contractor Decision Tree</td>
</tr>
</tbody>
</table>
Subrecipient and Contractor Determinations 200.330

- **Pass-through entities** must make determinations

- **“Contractor”** has replaced **“vendor”**

- Characteristics of a subrecipient and of a contractor (formerly vendor) have not changed

- **Subrecipient:**
  - Has performance measured against the objectives of the Federal program
  - Has responsibility for making programmatic decisions
  - Has responsibility for adherence to Federal program compliance requirements
  - Uses Federal funds to carry out a program of the organization, not to provide goods or services for a program of the pass-through entity
  - Determines who is eligible to receive Federal financial assistance

- **Contractor:**
  - Provides the goods or services within normal business operations
  - Provides similar goods or services to many different purchasers
  - Operates in a competitive environment
  - Provides goods or services that are ancillary to the operation of the Federal program
  - Is not subject to compliance requirements of the Federal program
Subrecipient and Contractor Determinations 200.330

Toolkit - Step 1 (Subrecipient/Contractor Determination)

• RF Subrecipient vs. Contractor Decision Tree

• Federal agencies may supply and require specific support for determinations
  • Could create a significant documentation burden
  • Could result in unintended agency influence on determinations
Toolkit - Step 1

RF Subrecipient vs. Contractor Decision Tree

Are funds being paid to an organization or business (entity) rather than to an individual?  

Yes ___  

Is the entity contributing to the scholarly and/or scientific conduct of the project?  

No ___  

CONTRACTOR - Process through Purchasing

Yes ___  

Does the entity's portion of the project require use of discretion and unique expertise or does the entity have responsibility for programmatic decision making?  

Yes ___  

Does the entity provide similar goods or services that are within their normal business operations to many different purchasers?  

No ___  

CONTRACTOR - Process through Purchasing

No ___  

CONTRACTOR - Process through Purchasing using an Employer ID# (EIN) or as a Consultant using a Social Security number
Requirements for Pass-through Entities
200.331

- All pass-through entities must...
  - Include required information in the subaward § 200.331(a)(1)
    - Honor subrecipient federally recognized, IDC rate
  - If no rate exists
    - Negotiate a rate or use the de minimus rate of 10% MTDC § 200.331(a)(4)

Toolkit - Step 2 (Risk Assessment)

- Evaluate subrecipient risk to determine appropriate monitoring § 200.331(b)
**Subrecipient Risk Assessment Questionnaire**

This questionnaire will be used to assess the subrecipient's risk and provide the necessary information for issuance of a subaward agreement.

### Section A - Core Information

Requirements for Pass-through Entities 200.331 (continued)

• All pass-through entities must…

  Toolkit - Step 3 (Risk Mitigation)
  • Consider imposing specific conditions upon subrecipient if appropriate § 200.331(c)
Subrecipient Risk Analysis - High/Low Risk Entities

General Instructions
- Complete the risk analysis using the completed Subrecipient Risk Assessment Questionnaire provided by the subrecipient.
- The risk analysis must be applied each time a new subaward is issued or a modification is made to an existing award.
- This procedure applies to any subaward activity initiated after December 26, 2014. Existing subawards will need to be assessed and/or monitored as new modifications are requested or required.
- The weighted score will determine actions required.
- Financial thresholds are cumulative. Therefore, modifications may trigger the need to reassess risk.
- Campus is responsible for gathering information on whether or not the subrecipient requires additional monitoring.
- Any circumstance not covered in this version of the risk assessment can be marked in the "notes section of this form. The circumstance may increase the assessed risk of the subaward.

Subrecipient Name: ____________________________
Prime Sponsor: ________________________________
Subaward #: _________________________________

Fixed Amount Subawards – Limits 200.332

- Fixed amount awards defined at 200.45
- Allowed “with prior written approval from the Federal awarding agency up to the Simplified Acquisition Threshold” currently $150,000
Other Considerations

- Overall focus on Internal Controls
- Electronic records are now acceptable for collection, transmission and storage
- Conflict of Interest
The following chart reflects Research Foundation Policies created and updated to comply with OMB Uniform Guidance 2 CFR Part 200. All policies can be found at RF Policies A to Z.

Office of Management & Budget

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 78 FR 78590 - December 26, 2013

The Principal Investigators Handbook has been revised to reference OMB Uniform Guidance 2 CFR Part 200.

OMB issued final guidance on Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in the Federal Register on Thursday, December 26, 2013. 2 CFR Chapter I, Chapter II, Part 200, et al. (78 FR 78590)

This final guidance supersedes and streamlines requirements from OMB Circulars A-21, A-50, A-87, A-89, A-102, A-110, A-122, and A-133. The final guidance consolidates the guidance previously contained in the aforementioned citations into a streamlined format that aims to improve both the clarity and accessibility.

The interim joint final rule implementing the OMB Uniform Guidance is now available in the Federal Register (Vol 79, No. 244, Friday, December 19, 2014)

It is effective for new awards and for selected funding increments, issued on or after December 26, 2014. The 240-page Federal Register notice is structured with introductory comments at the beginning followed
